Venue : Seminar Hall II

About the College

After independence, the long-felt need for a college in Marthandam prompted the Kanniyakumari Diocese of the Church of South India to establish the Christian College in June 1964. With Madras University's approval, the Pre-University course was introduced the same year. In 1966, the college became affiliated with Madurai University. In June 1984, the institution was renamed Nesamony Memorial Christian College in honour of the late Thiru. A. Nesamony, M.A., B.L., in recognition of his invaluable services to the Kanniyakumari Diocese of the Church of South India. In 1991, the college became a constituent college of the newly established Manonmaniam Sundaranar University, Tirunelveli.

Department of Mathematics

The undergraduate programme in Mathematics was established in 1966, followed by the postgraduate programme in 1981 and the M.Phil. programme in 2006. The department was recognised as a Research Centre in 2009. Over the years, the department has made significant contributions to research, producing numerous Ph.D. graduates. Currently, the Research Centre has 7 research guides and has produced 69 Ph.Ds, with 22 research scholars pursuing advanced studies in Mathematics. The faculty members and research scholars have published more than 300 research papers in reputed national and international journals, reflecting the department's commitment to academic excellence and research advancement.

About the workshop

This workshop offers intensive coaching for aspirants preparing for the CSIR-UGC NET and SET examinations in Mathematics. The sessions are designed to strengthen conceptual understanding, enhance problem-solving skills, and provide comprehensive practice in key mathematical topics. The sessions will emphasise exam-oriented preparation, previous years' question papers, and emerging question patterns to equip participants with the knowledge and confidence needed to succeed in these competitive examinations.

Objectives

- To strengthen conceptual understanding of core Mathematics topics
- To provide practice with exam-oriented model questions and previous years' questions
- To enhance analytical thinking, logical reasoning, and problem-solving abilities
- To familiarise participants with the UGC-NET/SET exam pattern and effective time-management techniques

Programme Highlights

- Intensive coaching by NET/SET-qualified Mathematics faculty
- Comprehensive coverage of key Mathematics topics in the NET/SET syllabi
- Practice sessions using previous years' question papers
- Problem-solving techniques, shortcuts, and exam strategies
- Interactive sessions for concept clarification and doubt resolution
- Mock test to assess readiness and boost exam confidence

Target Participants

- Postgraduate Mathematics Students
- NET/SET Aspirants
- Research Scholars in Mathematics
- Interested Students from UG final year
