Page 5 Code No.: 7506

20. (a) Explain briefly the various of control techiques.

Or

## (b) Case Study:

Anubhav has set up an export house after completing his masters in fashion designing. As the quality of the garment depends on the quality of raw materials used, he assures that the fabric meets the requirements by conducting a series of tests for the fabrics like shrinkage test, testing colour fastness to washing, colour fastness to light, colour fastness to perspiration etc. through laboratory tests. Later on, at the production areas, fabric inspection is also conducted by stopping the production process. The tests help to detect the deviations and also take corrective action. Moreover, the ensures that complete training about production work was given to every worker at the time of joining his export house.

In context of the above case:

- (i) Identify the function of management being performed by Anubhav by conducting tests to assure for the quality of the garments manufactured in his export house.
- (ii) Briefly explain the term 'deviations'.
- (iii) Give any three advantage of giving training to the employees.
